About me

Software engineer with over 5+ years of experience in designing and developing scalable and high-performance web applications. Working with Next.js, Node.js, React.js, TypeScript and database management (MongoDB, MySQL, Supabase, Firebase). Strong experience with AI integrations, AI Agents, API development, and cloud-based deployments. Adept at optimizing system performance, debugging, and creating seamless user experiences with CI/CD pipelines, Agile methodologies, and modern development tools.

Work experience

Web application developer | NextPak agile solutions | 01/08/2022 - 31/12/2024 | Rawalpindi, Pakistan

Built airline ticket reservation system with real-time seat selection + payment integration, Reduced checkout abandonment 5%. Led development of "Sports at School" platform: dashboards with Node.js, MongoDB, Redis & Stripe payment. Collaborated cross-functionally ensuring rapid iteration under Agile sprints.

Software engineer | Maiv Ltd | 01/12/2024 - 31/07/2025 | Bishop's Stortford, United Kingdom

Lead development of Next.js AI applications leveraging GPT APIs for intelligent content generation and SEOoriented blogging pipelines (Sanity CMS). Manage Supabase for data operations and PostHog instrumentation to monitor feature performance & user behavior. Orchestrate deployment flows (Vercel), email automation (MailerLite), payments (PayPal), and affiliate program setup (Tolt) to streamline go-to-market operations. Optimize platform via strategic debugging, feature integration & performance enhancements—up to 50% load time reduction, revenue uplift of 15% and Supported 50K+ monthly active users.

Senior Web App Consultant | Accurasy | 29/09/2025 - Current | Dubai, United Arab Emirates

Leading development of MERN stack application for healthcare sector.
